COURSE OVERVIEW

This training course introduces teachers to a wide range of free digital tools that can support learning, assessment and classroom management across all subjects. Participants discover resources for creating worksheets, quizzes, videos, collaborative activities and interactive lessons. The course focuses on practical applications that save time, increase student engagement and enhance digital competence. Educators will learn how to select reliable tools, integrate them meaningfully and adapt them to different teaching contexts.

METHODOLOGY

The course uses a practical, tool-based approach combining:

- demonstrations of free digital platforms
- hands-on creation of materials
- collaborative tasks and peer exchange
- examples for different subjects and levels
- AI and open-source resources for education

Participants will build a personalised toolbox of effective, accessible digital solutions.

TARGET GROUP

- Regional and local authorities;
- School/ adult centre management department, collaborators and volunteers
- Teachers & school staff

LEARNING OUTCOMES
